MORE ENGINEERING SKILL AT PORSCHE TEQUIMENT.

**The limits of feasibility?
Are constantly being redefined.**

Our products are developed and tested with the whole vehicle in mind in Weissach – one of the world's most modern development centres.

And by the same Porsche engineers who made your car. Perfectly tailored to your Porsche and your lifestyle. Thus, we leave nothing to chance during their development and testing. All our products are trialled under the toughest conditions. From design to approval. From safety to performance. From functionality to resilience.

1. Aerodynamics under scrutiny.

Products such as our SportDesign packages and Aerokit have undergone rigorous testing in the wind tunnel. Our high-tech wind tunnel sets new standards. Its fan, measuring eight metres in diameter and engineered with extremely lightweight carbon blades, is able to generate wind speeds of up to 300km/h. What's more, the floor surface rolls along underneath the vehicle at the same speed as the wind throughout the aerodynamic evaluation. The result? A headwind that delivers, thanks to perfect design and first-class drag coefficients.

2. Extreme testing for wheels and tyres.

Porsche high-performance tyres are distinguished from other tyres in many ways such as their geometry, the rubber compound and the rigorous testing. Driving on the Nürburgring is also part of the test scope. The values observed there are used as input parameters for the subsequent testing of our wheels. Not least the endurance test in the Biaxial Wheel Test (ZWARP) – which simulates the long-term strain associated with extreme driving styles.

3. Performance check for transport systems.

Our roof boxes and transport systems are designed for performance, just like a Porsche. Transport systems are actually more complex than many people think. Braking safety, noise levels and fuel consumption are just some of the points that are tested in Weissach. But we're also concerned with ease of operation. Therefore, our roof boxes have a locking system on both sides. This simplifies both the loading and unloading of the box.

General accessories

Standing still? Not an option. After all, there is still much to discover and experience. And countless adventures are waiting for you.

Our accessories will help you reach your destinations – no compromise.

CAR COVERS.

More Porsche diversity.
Even when you're not driving.

A pit stop can also be optimally combined with performance. With custom-fit Porsche Tequipment car covers, for example. Whether indoor or outdoor, they provide ideal protection against dust, sunlight, weathering and dirt. And also have an eye-catching appearance. You can choose from various designs, depending on your model. Our way of showing that downtime certainly doesn't have to be boring.

CHILD SEATS.

**More butterflies in your stomach.
Even for the smallest passengers.**

Driving in a Porsche is one of the biggest things even for the smallest passengers. Which is why Porsche Tequipment offers specially designed child seats. They meet strict safety standards and have been specially tested and approved for Porsche cars, thereby providing protection and comfort for children up to 12 years of age. The fabrics are breathable, hypoallergenic and easy to clean.

ISOFIX is a standard system for mounting points in almost all vehicles. This ensures that the child seat is securely fastened in the car. Our i-Size seats fit all car seating positions approved for i-Size. Please check your vehicle manual to see if your car has such approved vehicle seating positions.

A	
Model:	Porsche Baby Seat i-Size + Flex Base i-Size
Group:	0
Weight:	0 to 13kg
Age:	Up to 15 months
Dimensions:	40 to 83cm

B	
Model:	Porsche Child Seat i-Size
Group:	1
Weight:	9 to 18kg
Age:	9 months to 4 years
Dimensions:	61 to 105cm

A child seat should only be used on the front passenger seat in conjunction with the child seat preparation available ex-works. When carrying children up to 27kg, the front passenger airbag must be deactivated.

Comfortable covers
High performance at high temperatures? No problem. The lightweight terry cotton absorbs both heat and sweat in equal measure. And handling could not be easier: just pull it over the seat cover and wash it in the washing machine at 60 degrees when soiled.

TRANSPORT.

More expansion.
For your own horizon.

A hunger for thrills, a desire for adventure or a joy of discovery? No problem. The intelligent transport systems from Porsche Tequipment ensure that you always have the space you need for your equipment wherever you are. Because no matter what you have planned or where the journey will take you, our roof boxes and intelligent systems transport far more than just athleticism.

CAR CARE.

**More sports-car-like quality.
Even during pit stops.**

Special cars deserve special attention. With its exclusive 'White Edition' car care range, Porsche has therefore developed a programme that offers a wide selection of products for protecting and maintaining the interior and exterior of your vehicle.

The 'White Edition' car care products are supplied in a high-quality Rimowa trolley case, providing perfect storage for all the products. The trolley case fits every Porsche model and is sturdy and ultra-light. The foam inlay can be removed if necessary, allowing the trolley case to be used as a high-quality travel accessory.

Also typical of Porsche Tequipment is the unique design of all the bottles. Developed together with the designers from Studio F. A. Porsche, it is timeless and inspired by the shape of the Porsche Crest. Also typical Porsche: the extensive test procedure. Because all our car care products are tested under special conditions in Weissach – just like every Porsche. They meet the highest quality standards.

Charging Dock

The front of the Porsche Charging Dock is made of black safety glass featuring a silver-coloured 'PORSCHE' logo. It allows the Porsche Universal Charger (AC) to be installed on your garage wall, for example. It is suitable for all common industrial electrical outlets. The Charging Dock has a connector for the vehicle plug on both sides. The up-to-7.5m vehicle cable can be wound into the casing, from which the charger can be removed at any time. Can also be used outside*. Lockable.

The Porsche Universal Charger (AC) shown in the picture and the optional charging cable are not included. Please contact your Porsche Centre for assembly information.

* Should not be exposed to heavy rain.
